

## EU 0.2 ml 8-tube strip, SFGC

RP,LF,SFGC,Extra Robust,Fits Shell Frame Grids (0.2 ml)  
Natural, Bag of 120 Strips

Shell Frame Grids Compatible Fits almost all PCR and qPCR cycler models which accept regular profile products, such as ABI/LT, Agilent®, Bio-Rad®, Eppendorf® and others. See compatibility list at [www.bioplastics.com](http://www.bioplastics.com). Designed for PCR and qPCR applications. Can also be positioned in specific (skirted) grids also called Shell Frame Grids and once "positioned in" becoming a plate assembly for specific (q)PCR instruments. To fit all ABI 0.2 ml cyclers use grid AB17503G and for making solid non skirted plates use B69304 grid. See also: Shell Frame Grids. Closure can be accomplished with any EU 8-cap strip. For qPCR closure the use of B57801, B79701-1 or the Optical Tear Off 8-Cap Strip Mat (B57651) is recommended.

Article: B69901

Colour: Natural

Quantity: bag of 120

### Regular Profile Products:

- Optimized for qPCR
- Fits all cyclers with height adjustable lid
- Fits all non fast cyclers
- Fits all 0.2 ml cyclers
- qPCR approved, identical raw material, high reproducibility

### Frosted Products:

- Higher signal to noise ratios in qPCR
- Available for all type of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

### Extra low DNA binding tubes

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
