

384 Well Plate

LF,384 well plate,robotic friendly fits all cycler types
Natural, Box of 40 plates

This superior fully skirted 384 well EU plate is designed to fit standard 384 well cyclers, optimized for robotic applications. Allows for high-throughput, low-volume processing. Can be used in many 384 well block (q)PCR cycler models. See compatibility search engine at www.bioplastics.com. Plates are rigid, flat and stackable. Closure can be accomplished with one of the EU Seals (157300, 157200).

Article: B70515

Colour: Natural

Quantity: box of 40

Ultra Clear Transparent Products:

- Extremely transparent
- Available for all types of (q)PCR vessels and Shell Frame Grids
- Recommended if optical qPCR signal is obtained through bottom of the tubes
- qPCR approved and identical raw material, high reproducibility

Extra low DNA binding tubes

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
