

0.5 ml Dilution & Storage 8-tube strip

8-Tube strips

Natural, Bag of 300 strips

Dilution storage tubes and systems are designed for multi purpose usage. The tubes are extra robust, can hold 0.5 ml, have an extraordinary working range of -200 °C to 110 °C and can be centrifuged up to 20.000 g. All tubes can be stored in the BIOplastics regular Work Rack S-96 System. All tubes can be closed using the extra robust EU Indented Flat 8 cap-strip (B75701), Indented Flat 12 cap-strip, the EU Indented Flat cap-plate 96 Format (B57501) and one of our seals.

Article: B74156

Colour: Natural

Quantity: bag of 300

Frosted Products:

- Higher signal to noise ratios in qPCR
- Available for all type of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

Cut-able Products:

- Extreme high efficiency
- Available for all types of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

Extra low DNA binding tubes:

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
