

96 x 0.2 ml Plate, Laser marked

RP,LF,SUB Sk,96 well plate,designed to fit ABI /Life Technologies ® Cyclers
White, Box of 25 plates

These plates are designed for PCR and qPCR applications and specifically to fit ABI/ Life Technologies ® 0.2 ml systems. These plates fits also most (q)PCR Cycler models which accept regular profile (RP) products. Alternatively to this plate, one can opt for Shell Frame Grids (AB17503G) and its assemblies with either cut-able plates (B50501-1) or Tear Off Mats (B58001). Closure can be accomplished with any EU cap strip or Opti-Seal™. For qPCR closure the use of B57801, B79701-1 or Optical Tear Off 8-Cap Strip Mat is recommended. This product will be discontinued and replaced by its successor. See compatibility search engine at www.bioplastics.com.

Article: AB17509L

Colour: White

Quantity: box of 25

Regular Profile Products:

- Optimized for qPCR
- Fits all cyclers with height adjustable lid
- Fits all non fast cyclers
- Fits all 0.2 ml cyclers
- qPCR approved, identical raw material, high reproducibility

Frosted Products:

- Higher signal to noise ratios in qPCR
- Available for all type of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

Laser Mark Products:

- Unique coded, irreversible
- Also available in 1D and 2D and OEM versions
- Available for all types of qPCR vessels in frosted and white versions
- qPCR approved and identical raw material, high reproducibility

Extra low DNA binding tubes

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
