

96 x 0.2 ml Plate

RP,LF,SUB Sk,96 well plate,designed to fit ABI /Life Technologies ® Cyclers
White, Box of 25 plates

These plates are designed for PCR and qPCR applications and specifically to fit ABI/
Life Technologies ® 0.2 ml systems. These plates fits also most (q)PCR Cycler models
which accept regular profile (RP) products. Alternatively to this plate, one can opt for
Shell Frame Grids (AB17503G) and its assemblies with either cut-able plates (B50501-
1) or Tear Off Mats (B58001). Closure can be accomplished with any EU cap strip or
Opti-Seal™. For qPCR closure the use of B57801, B79701-1 or Optical Tear Off 8-Cap
Strip Mat is recommended. See compatibility search engine at www.bioplastics.com.

Article: AB17509

Colour: White

Quantity: box of 25

Regular Profile Products:

- Optimized for qPCR
- Fits all cyclers with height adjustable lid
- Fits all non fast cyclers
- Fits all 0.2 ml cyclers
- qPCR approved, identical raw material, high reproducibility

Frosted Products:

- Higher signal to noise ratios in qPCR
- Available for all type of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

Extra low DNA binding tubes:

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
