

96 x 0.1 ml Plate

LP, LF,SUB, Lasermark coded, Frosted Subskirted Thin-wall, Low-profile, ABI compatible (0.1 ml)
Natural, Box of 25 plates

The plate has frosted tubes and can be used in Real-Time applications. The plate is designed to fit ABI9800 and other "fast" cyclers sample blocks and can also be used in many 0.2 ml regular and Real-Time thermal cyclers. The working volume for this plate is between 5 and 25µl reaction mixtures. Closure can be accomplished with either EU (optical) strip caps, mats or seals. Hint: Fits all ABI fast cyclers.

Article: AB19800L

Colour: Natural

Quantity: box of 25

Regular Profile Products:

- Optimized for qPCR
- Fits all cyclers with height adjustable lid
- Fits all non fast cyclers
- Fits all 0.2 ml cyclers
- qPCR approved, identical raw material, high reproducibility

Frosted Products:

- Higher signal to noise ratios in qPCR
- Available for all type of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

Laser Mark Products:

- Unique coded, irreversible
- Also available in 1D and 2D and OEM versions
- Available for all types of qPCR vessels in frosted and white versions
- qPCR approved and identical raw material, high reproducibility

Extra low DNA binding tubes

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
