

96 x 0.2 ml Plate

RP,LF,SEMI Sk,cutable,96 well plate (0.2 ml)
Natural, Box of 25 plates

Plates can be easily cut in sections of 3 rows. These plates fits also most (q)PCR Cycler models which accept regular profile (RP) products. For qPCR we recommend the use of frosted products or white products. Closure can be accomplished with any EU 8 or 12-cap strip and Opti-Seal™. For qPCR closure the use of B57801, B79701-1 or Optical Tear Off 8-Cap Strip Mat is recommended. Plate is robust, flat and can be color coded using a Pre-Post Tube support grid.

Article: B50651

Colour: Natural

Quantity: box of 25

Regular Profile Products:

- Optimized for qPCR
- Fits all cyclers with height adjustable lid
- Fits all non fast cyclers
- Fits all 0.2 ml cyclers
- qPCR approved, identical raw material, high reproducibility

Frosted Products:

- Higher signal to noise ratios in qPCR
- Available for all type of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

Cut-able Products:

- Extreme high efficiency
- Available for all types of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

Extra low DNA binding tubes:

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
