

## 96 x 0.2 ml Plate

RP,UC,NON Sk,cutable,96 well plate (0.2ml)  
Natural, Box of 25 plates

These plates are designed for PCR and qPCR applications and fit almost all (q)PCR cycler models which accept regular profile (RP) products. See compatibility search engine at [www.bioplastics.com](http://www.bioplastics.com). For qPCR we recommend the use of frosted or white products. Plates can be easily cut into 16, 24, 32 or 48-well pieces. Closure can be accomplished with any EU 8-cap strip or Opti-Seal™. For qPCR closure the use of B57801, B79701-1 or Optical Tear Off 8-Cap Strip Mat is recommended.

Article: B70501

Colour: Natural

Quantity: box of 25

### Regular Profile Products:

- Optimized for qPCR
- Fits all cyclers with height adjustable lid
- Fits all non fast cyclers
- Fits all 0.2 ml cyclers
- qPCR approved, identical raw material, high reproducibility

### Ultra Clear Transparent Products:

- Extremely transparent
- Available for all types of (q)PCR vessels and Shell Frame Grids
- Recommended if optical qPCR signal is obtained through bottom of the tubes
- qPCR approved and identical raw material, high reproducibility

### Cut-able Products:

- Extreme high efficiency
- Available for all types of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

### Extra low DNA binding tubes

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
