

## 96 x 0.2 ml Plate, Laser barcoded

RP,LF,SUB Sk,96 well plate,designed to fit ABI /Life Technologies® Cyclers  
Natural, Box of 25 plates

These plates are designed for PCR and qPCR applications and specifically to fit ABI/ Life Technologies® 0.2 ml systems. These plates fits also most (q)PCR Cycler models which accept regular profile (RP) products. Alternatively to this plate, one can opt for Shell Frame Grids (AB17503G) and its assemblies with either cut-able plates (B50501-1) or Tear Off Mats (B58001). Closure can be accomplished with any EU cap strip or Opti-Seal™. For qPCR closure the use of B57801, B79701-1 or Optical Tear Off 8-Cap Strip Mat is recommended. See compatibility search engine at [www.bioplastics.com](http://www.bioplastics.com).

Article: BB17500L

Colour: Natural

Quantity: box of 25

### Regular Profile Products:

- Optimized for qPCR
- Fits all cyclers with height adjustable lid
- Fits all non fast cyclers
- Fits all 0.2 ml cyclers
- qPCR approved, identical raw material, high reproducibility

### Frosted Products:

- Higher signal to noise ratios in qPCR
- Available for all type of qPCR vessels
- qPCR approved and identical raw material, high reproducibility

### Laser Mark Products:

- Unique coded, irreversible
- Available for all types of qPCR vessels in frosted and white versions
- qPCR approved and identical raw material, high reproducibility

Extra low DNA binding tubes:

- Extreme high efficiency
- Low copy detection
- Maximum sample recovery
- qPCR approved and identical raw material, high reproducibility
